

Najela Aulia Zahra

Supply Chain | Data Analytics | Business Analyst

Business Statistics, Institut Teknologi Sepuluh Nopember

Najela Aulia Zahra

Halo! I'm Najela

Business Statistics undergraduate with hands-on experience in data analysis, demand forecasting, process optimization, and KPI dashboard development. Experienced in processing corporate data into executive dashboards tracking 40+ KPIs at PLN UID Jawa Timur, supported by continuous learning across data analytics, supply chain, and statistical modeling. Adaptable and growth-oriented, with a strong interest in applying analytical skills to solve business and supply chain challenges.

Education

Institut Teknologi Sepuluh Nopember (2023 – 2027)

Business Statistics, Vocation, GPA : 3,41/4,00

Related Coursework :

Supply Chain Management | Statistical Quality Control | Operation Research | Realibility & Lifetime Data Analysis | Industrial & System Engineering

Professional Experiences

January 2026 - February 2026

PT PLN (Persero) UID Jawa Timur

Corporate Planning Intern

February 2026 - July 2026

Department of Business Statistics, Vocation, Institut Teknologi Sepuluh Nopember

Teaching Assistant - Statistical Quality Control

April 2025 - Juny 2026

HALOJIVA Wedding Organizer

Event Crew

PT PLN (Persero) Unit Induk Distribusi Jawa Timur

Corporate Planning Intern

January 2026 - February 2026

Worked with the Corporate Planning team and had a project to analyze operational performance data and develop data-driven solutions for better monitoring and decision making.

Key Contribution

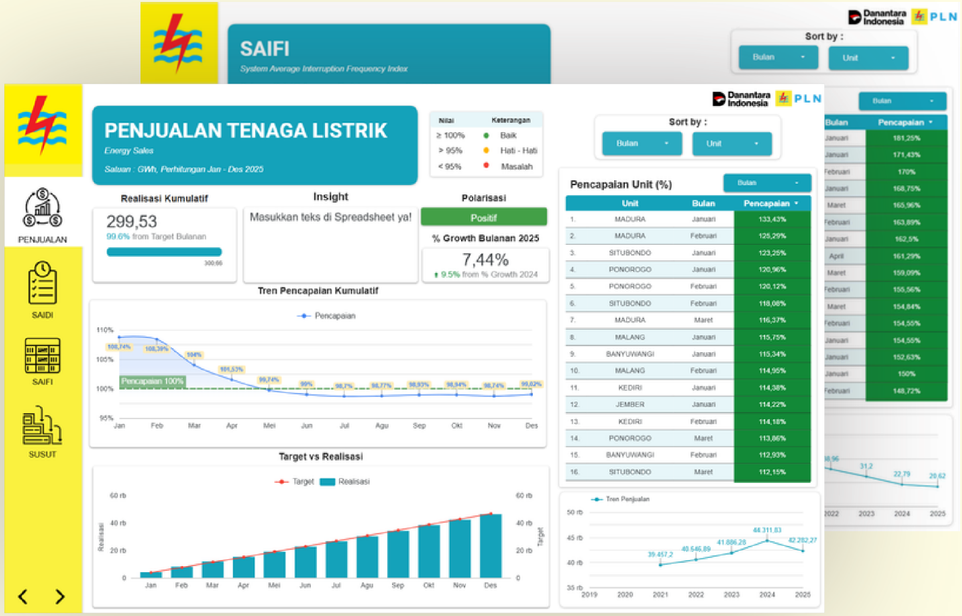

- Developed a Looker Studio interactive dashboard tracking 40+ operational performance KPIs, optimizing executive monitoring and reporting.
- Analyzed operational trends and performance gaps to identify key areas for improvement and support management decision-making.
- Digitized and processed performance evaluation data for 70 employees, ensuring 100% record accuracy.

Tools Used

- Google Data Studio
- Google Spreadsheet
- Microsoft Excel

Dashboard Interactive Summary Performance Review January - December 2025

What Can User Learn?

01 - Performance Overview

Understand the overall performance of 40+ KPIs across PLN UID Jawa Timur.

02 - Trends & Comparisons

Explore KPI trends over time and compare performance across UP3 units.

03 - Performance Gaps

Identify KPIs and units that require closer attention through detailed KPI-level analysis.

Department of Business Statistics, ITS

Teaching Assistant – Statistical Quality Control

February 2026 - July 2026

Supported the Statistical Quality Control course at ITS by assisting lectures, guiding students, and creating learning materials.

Key Contribution

- Guided students in applying statistical methods and control charts
- Conducted practical data analysis sessions
- Designed and evaluated practical assessments
- Helped students connect statistical concepts with practical data analysis

Material that me & my partner made!

Tools Used

- Minitab
- SPSS
- Rstudio
- Microsoft Excel
- Statistical Analysis

Thesis Final Project

In Progress

FORECASTING CALIBRATION SERVICE DEMAND BASED ON INSTRUMENT GROUPS FOR OPERATIONAL CAPACITY PLANNING AT PT XYZ

Analyzing calibration service demand by instrument group at PT XYZ, transforming historical purchase order data into quantitative insights for demand forecasting and engineer capacity planning.

Data & Scope

- Purchase order data July 2021 - Juny 2026
- 60 months of monthly demand
- 5 instrument groups:
  - Flowmeter
  - Conductivity
  - Pressure
  - pH Meter
  - Temperature
- Data split : 48 months training + 12 month testing

Research Metodology

1. Classify demand patterns using ADI & CV^2
2. Apply forecasting method Croston, SBA, and SVR
3. Compare accuracy using MAE, RMSE, and MASE
4. Translated projected demand into workload & engineer requirements

Tools Used

Thesis Final Project

In Progress

Current Progress | Analyzing demand characteristics, developing forecasting models, and preparing demand projections to be converted into operational capacity requirements

What Does This Analysis Deliver?

1. **Understand Demand** → Identify which instrument groups drive demand and how frequently they are ordered.
2. **Characterize Demand Patterns** → Classify demand into smooth, erratic, intermittent, or lumpy using ADI–CV^2.
3. **Select the Right Forecasting Method** → Compare Croston, SBA, and SVR to identify the best-performing method for each instrument group.
4. **Forecast the Next 12 Months** → Project future calibration demand by instrument group.
5. **Translate Demand into Workload** → Convert projected units into required engineering workload using standard process time.
6. **Plan Engineering Capacity** → Estimate the number of engineers required through RCCP.

Organizational Experiences

01

HIMADATA ITS
Head of Student Resource Development

2026 - 2027

What I Built?

1. **KPI Framework**

Define measurable indicators for each programs

2. **SOP & Workflow**

Standardized execution flow and task delegation

3. **Progress Tracking System**

Monitored program implementation using structured tracking sheets

4. **Evaluation & Recognition**

Converted activity outcomes into performance assesments and recognition

12 Staff Members

5 Flagship Programs

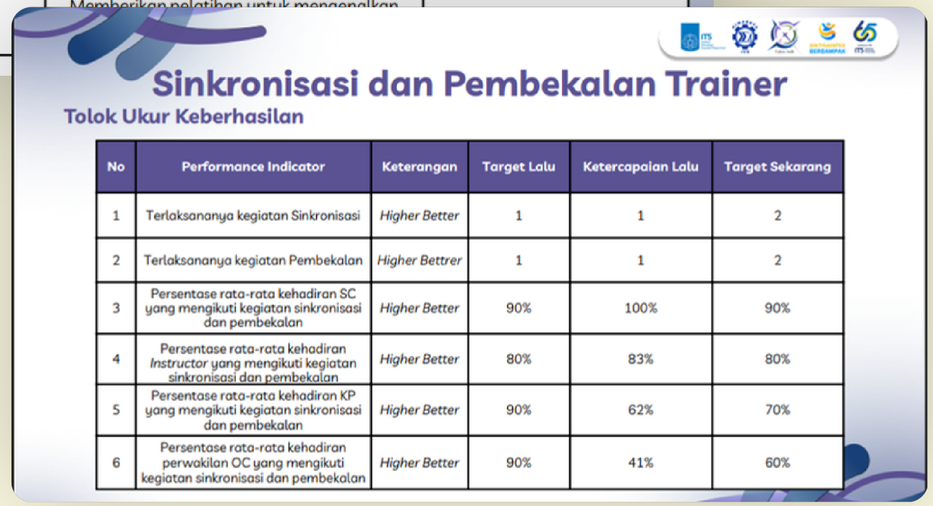

2 Major Agendas

STRATEGI

No	Arahan Kerja	Strategi	Program Kerja/Agenda
1	Terdapat proses pengenalan dan pengembangan untuk mahasiswa sesuai dengan panduan HDPSDM dan PPSDM	Memberikan orientasi pengenalan departemen untuk mahasiswa baru angkatan 2026	OKKBK
2	Terwujudnya mahasiswa yang terampil di bidang manajerial	Memberikan pelatihan manajemen event kepada mahasiswa statistika bisnis	LKMMTD
3	Meningkatkan pemahaman, komunikasi, kerjasama, dan sinkronisasi dalam kaderisasi HIMADATA-ITS	Mengadakan kegiatan *sharing session* dengan pihak eksternal untuk pembekalan elemen kaderisasi	TTFT
		Mengoptimalkan sinkronisasi antar elemen kaderisasi	Sinkronisasi dan Pembekalan Trainer
		Memberikan pelatihan untuk mengenalkan	

Sinkronisasi dan Pembekalan Trainer

Tolok Ukur Keberhasilan

No	Performance Indicator	Keterangan	Target Lalu	Ketercapaian Lalu	Target Sekarang
1	Terlaksananya kegiatan Sinkronisasi	*Higher Better*	1	1	2
2	Terlaksananya kegiatan Pembekalan	*Higher Bettrer*	1	1	2
3	Persentase rata-rata kehadiran SC yang mengikuti kegiatan sinkronisasi dan pembekalan	*Higher Better*	90%	100%	90%
4	Persentase rata-rata kehadiran *Instructor* yang mengikuti kegiatan sinkronisasi dan pembekalan	*Higher Better*	80%	83%	80%
5	Persentase rata-rata kehadiran KP yang mengikuti kegiatan sinkronisasi dan pembekalan	*Higher Better*	90%	62%	70%
6	Persentase rata-rata kehadiran perwakilan OC yang mengikuti kegiatan sinkronisasi dan pembekalan	*Higher Better*	90%	41%	60%

Organizational Experiences

02

PEMANDU VOKASI ITS
Disciplinary Commission

2024 - 2027

What I Built?

1. **KPI & Evaluation Framework**

Developed KPIs and assessment criteria for faculty training program

2. **SOP & Standardization**

Created SOPs, permission workflows, and standardized templates

3. **Data Collecting & Tracking**

Designed forms & tracking systems for attendance, compliance, and assignments

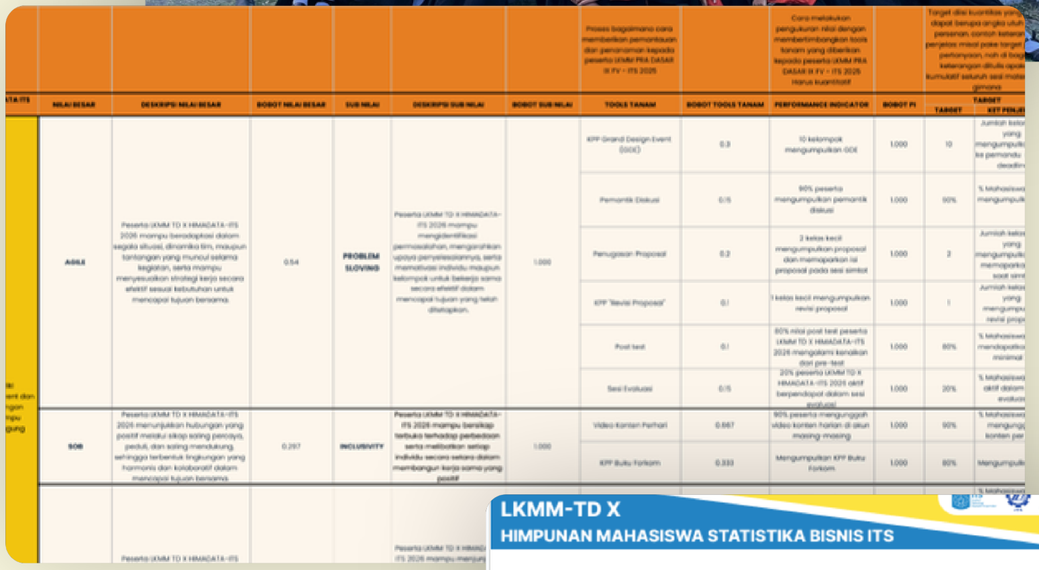

4. **Daily Evaluation & Reporting**

Consolidate daily assessment data to monitor performance

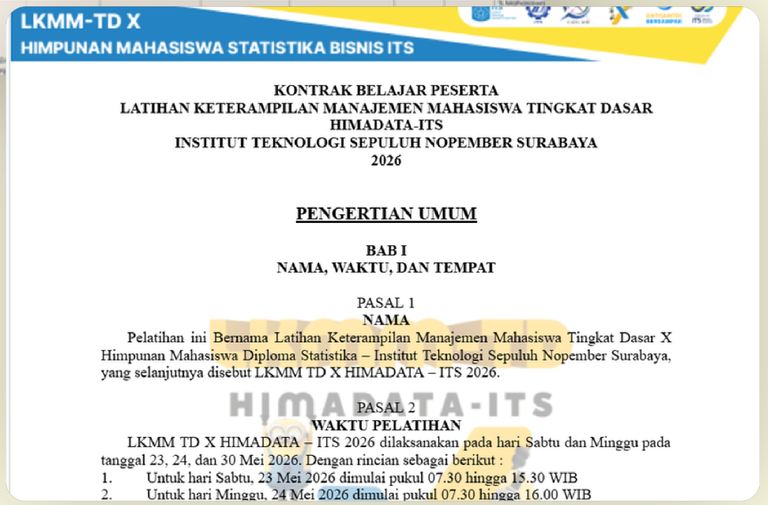

300+ Annual Participants

3 Program Cycles

PENGERTIAN UMUM

BAB I
NAMA, WAKTU, DAN TEMPAT

PASAL 1
NAMA

Pelatihan ini Bernama Latihan Keterampilan Manajemen Mahasiswa Tingkat Dasar X Himpunan Mahasiswa Diploma Statistika – Institut Teknologi Sepuluh Nopember Surabaya, yang selanjutnya disebut LKMM TD X HIMADATA – ITS 2026.

PASAL 2
WAKTU PELATIHAN

LKMM TD X HIMADATA – ITS 2026 dilaksanakan pada hari Sabtu dan Minggu pada tanggal 23, 24, dan 30 Mei 2026. Dengan rincian sebagai berikut :

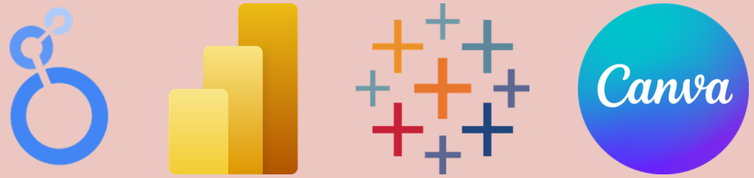

1. Untuk hari Sabtu, 23 Mei 2026 dimulai pukul 07.30 hingga 15.30 WIB
2. Untuk hari Minggu, 24 Mei 2026 dimulai pukul 07.30 hingga 16.00 WIB

Skills & Tools

Data Analysis & Statistics

Data Visualization & Presentation

Core Skills

- Analytical Problem Solving
- Cross-Functional Collaboration
- Data Interpretation
- Leadership
- Attention to Detail

Language

- Indonesian (Native)
- English (Intermediate)
